SUMMARY

Hello! My name is Dayna Payne, owner of Hello Darling Studios. I am a graduate of F.I.R.S.T. Institute in Orlando Florida where I studied Graphic Design and Web Development. I pursued my passion for programming by going to the UCF coding program, where I gained knowledge and experience with both front and back end development. I am also a passionate photographer with years of experience with Adobe software, which I love to incorporate into my clients website we needed. I am dedicated to my work and self-motivated.

EXPERIENCE

GRAPHIC DESIGN AND PHOTOGRAPHY

"TRENT DUNCAN PRODUCTIONS"

TEAM WEB APP PROJECTS

"CODE ASSAULT"

ASST PHOTOGRAPHER

NETFLIX FILM

ANASTASIA

ACCOMPLISHMENTS

At F.I.R.S.T. Institute I was able to be thoroughly involved in networking with other students, and gaining insight into other fields and building relationships with potential future partners and clients. I was able to begin working on set, doing behind the scenes photography on the YouTube sensation 'Icons of Horror', with Trent Duncan. I was even able to work along side Award winning cinematographer Dean Cundy, who was filmed movies such as Jurassic Park, Back to the future and Road House. I was doing behind the scenes photography on the Disney princess spin off 'Anastasia', that will be on Netflix this year! I enjoy working in teams but also thrive on my own. I love to be able to incorporate all of my skills in my work provided to my clients.
